

WHAT GOOD IS A RALLY IF YOU CAN'T HOLD ON TO IT?

There's nothing more exciting than a sustained equity market rally. But what good is a market rally if you can't keep your gains?

If your clients have enjoyed the rally in equities and have gains in their portfolios, you can give them the opportunity to potentially lock in some or all of those gains in case of market volatility. With **Market-Linked Notes and FDIC-insured¹ Market-Linked CDs** tied to equity market indices and held to maturity, you can help your clients:

- Continue to participate in a potential extended equity market rally²
- Gain confidence investing with a level of downside protection²

Capture the rally with Market-Linked Products. For current offerings and client education materials, call **888.849.5732 or email **AdvisorSupport@incapital.com**.**

FOR ADVISOR USE ONLY. NOT FOR DISTRIBUTION TO RETAIL INVESTORS.

¹ Market-Linked Certificates of Deposit ("MLCDs") are subject to credit risk of the issuer above FDIC limits.

² Subject to the terms of the offering document which could include participation rates, interim caps, and various risks. Any applicable downside protection will be realized only at maturity. For Market-Linked Notes, return at maturity could be less than the original amount invested, and subject to the credit risk of the issuer.

Any investments or investment strategies do not take into account the investment objectives, financial situation or particular needs of any specific person. Product suitability must be independently determined for each individual investor. Incapital explicitly disclaims any responsibility for product suitability or suitability determinations related to individual investors.

The investment products discussed herein are considered complex investment products. Such products contain unique features, risks, terms, conditions, fees, charges and expenses specific to each product. The overall performance of the product is dependent upon the performance of an underlying or linked derivative financial instrument, formula or strategy. Investments in complex products are subject to the risks of the underlying asset classes to which the product may be linked, which include, but are not limited to, market risk, liquidity risk, call risk, income risk as well as other risks associated with foreign, developing or emerging markets, such as currency, political and economic risks. Investors that sell complex products or MLCDs prior to maturity are subject to the risk of loss of principal, as there may not be an active secondary market. You should not purchase a complex investment product or make an investment recommendation to a customer until you have read the specific offering documentation and understand the specific investment terms, features, risks, fees, charges and expenses of such investment.
