

# PROTECTION WITH POSSIBILITIES<sup>1</sup>

Are you uncertain where the markets are headed? Do you want to continue to participate in upside opportunities but are concerned about a market decline?

If you are interested in an investment strategy that gives you the flexibility to choose between varying degrees of exposure to market growth and downside protection<sup>1</sup>, then don't miss the educational session on **Market-Linked Notes**.

These unique solutions can:

- Provide various levels of principal protection, if held to maturity<sup>1</sup>
- Increase the potential for growth and/or income<sup>1</sup>
- Help you feel more financially prepared to meet your investment goals

**Speak with your Financial Advisor about whether Market-Linked Notes may be the right solution for you.**

<sup>1</sup>Subject to the terms of the offering documents which could include participation rates, interim caps, and various risks. Any applicable downside protection will be realized only at maturity. Return at maturity could be less than the original amount invested, and subject to the credit risk of the issuer.

Incapital LLC and its affiliates explicitly disclaim any responsibility for product suitability or suitability determinations related to individual investors. This information should not be regarded by recipients as a substitute for the exercise of their own independent judgment, and the information provided herein is not an offer, solicitation or a recommendation to buy, sell or hold any security or investment strategy. There can be no assurance that the investments shown herein were or will be profitable, and this material does not take into account any investor's particular investment objectives, financial situation, particular needs, strategies, tax status or time horizon. The investment products discussed herein are considered complex investment products. Such products contain unique features, risks, terms, conditions, fees, charges and expenses specific to each product. The overall performance of the product is dependent upon the performance of an underlying or linked derivative financial instrument, formula, or strategy. Return of principal is not guaranteed and is subject to the credit risk of the issuer. Investments in complex products are subject to the risks of the underlying reference asset classes to which the product may be linked, which include, but are not limited to, market risk, liquidity risk, call risk, income risk as well as other risks associated with foreign, developing or emerging markets, such as currency, political, and economic risks. Depending upon the particular complex product, participation in any underlying market-linked product is subject to certain caps and restrictions. Any investment product with leverage associated may work for or against the investor. Market-Linked Notes are subject to credit risk of the issuer. Investors who sell complex products or Market-Linked Notes prior to maturity are subject to the risk of loss of principal, as there may not be an active secondary market. You should not purchase a complex investment product until you have read the specific offering documentation and understand the specific investment terms, features, risks, fees, charges and expenses of such investment.

The information contained herein does not constitute an offer to sell or a solicitation of an offer to buy securities. Investment products described herein may not be offered for sale in any state or jurisdiction in which such an offer, solicitation or sale would be unlawful or prohibited by the specific offering documentation.
